

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS
LANSING

MIKE ZIMMER
DIRECTOR

**Advisory Committee on Pain and Symptom Management (ACPSM)
Approved Meeting Minutes**

July 24, 2015

CALL TO ORDER

Kim Gaedeke, Chairperson, called the meeting to order at 9:39 a.m.

ROLL CALL

Welcome

Kim Gaedeke, Chairperson and Director, LARA Bureau of Professional Licensing, called the meeting to order. Janielle Houston took the roll call.

A meeting packet was emailed to all members and staff. The packet included the following: 1) November 7, 2014 meeting minutes; 2) meeting agenda

Members in attendance:

Daniel Berland, MD***
Mohamad Maher Fakhouri, MD
Kim Gaedeke, Chair
Lisa Gigliotti, JD
Timothy Grunwald,**
John Jerome, PhD
Jeanne Lewandowski, MD*
Robert Maciolek
Steven Roskos, MD
Claire Saadeh, Pharm.D, BCOP
April Hazard Vallerand, PhD, RN

Representing:

Michigan Board of Medicine – pain specialist
Wayne State University/College of Medicine
Michigan Dept. of Licensing and Regulatory Affairs
Public Member – represents a chronic pain sufferer
Michigan Palliative Care Association
Michigan Board of Psychology
Michigan Board of Medicine – primary care
Public Member – represents the general public
MSU/College of Human medicine
Michigan Board of Pharmacy
Michigan Board of Nursing

*by teleconference

**left at 11:51 a.m.

***left at 12:06 p.m.

Members absent:

Lawrence Ashman, DDS
Ronald H. Bradley, DO
Michael Chafy, MD
Dennis Dobritt, DO

Michigan Board of Dentistry
Central Michigan University College of Medicine
WMU/Homer Stryker MD School of Medicine
Michigan Board of Osteopathic Medicine & Surgery
pain specialist

Paul E. Hilliard, MD
William Morrone, DO

University of Michigan Medical School
Michigan Board of Osteopathic Medicine & Surgery
Primary Care

Robert Noiva, MD

Oakland University/William Beaumont School of
Medicine

Lawrence Prokop, DO

MSU/College of Osteopathic Medicine

Department staff in attendance:

Cheryl Wykoff Pezon –Manager, Boards and Special Programs Section
Janielle Houston – Board Support, Boards and Special Programs Section
Elaine Barr – Policy Analyst, Boards and Special Programs Section

APPROVAL OF MINUTES

MOTION by Saadeh, seconded by Gigliotti, to approve the minutes with changes to page 4.

Motion Prevailed

APPROVAL OF AGENDA

MOTION by Bradley, seconded by Jerome, to approve the agenda presented.

Motion Prevailed

ACPSM SUBCOMMITTEE REPORTS

Professional Education Subcommittee Report
Reporter: Claire Saadeh, Pharm.d, BCOP

The subcommittee met on June 25, 2015 and recommends that the committee will continue to work with Boston University to help support the train the trainee program. The trainer program has been discontinued, however online programs are available. Staff from Boston University will be in Michigan in the fall of 2015 to host a program. Saadeh will forward the information to the committee.

Berland suggested that the committee work on more than the REM programs which he believes are funded by drug companies.

There was a discussion on increasing the CE requirement for Pain and Symptom Management. Barr indicated all the Boards, except Medicine, accepted this CE requirement.

Saadeh also stated that the speakers bureau is complete and will continue to update. The Professional Education tool kit is completed and uploaded in the core curriculum for conferences. Recommends a list of organizations the committee should engage in communication with and have pain programs listed on the website.

State of Pain Subcommittee Report

Reporter: Lisa Gigliotti, JD

Gigliotti reported that the Governor mentioned the formation of the Prescription Drug Task Force and recommendations from the ACPSM in the State of the State address. The State of Pain report is on the website and was presented by the Governor at the National Governors Association.

Committee members expressed the need to have staff involved in assisting with their efforts and would like the Department to look at alternative ways of obtaining funds to get that support.

Pre-Professional Student Education Subcommittee Report

Reporter: Steven E. Roskos, MD

Curriculum has been distributed to 85 training programs. MSU has assisted in organizing faculty experts to find ways of integrating into curriculum. Oakland University was able to integrate in curriculum throughout all 4 years and has a grant to assist in integrating that curriculum. There has been no feedback yet from other medical schools. Dr. Roskos spoke at the 2014 meeting on Pain.

Saadeh suggested that the committee recommend the following for the future: 1) Hire a replacement staff dedicated to assisting the committee (subject specialist preferred); 2) More communication between residency programs and primary care about pain management; 3) Continue surveys to measure progress

Fishman books need to be replaced with something better and MAPS DVD should be posted to the web site and distributed to the newly licensed.

Roskos also stated that he has approached MSU to find his replacement on the ACPSM because of upcoming obligations that need more of his attention.

Health Consumer Education Subcommittee Report

Reporter: Lisa Gigliotti, JD

September has officially been named as Pain Awareness Month. There was a very successful social media campaign that developed positive messages on how to deal with pain management.

Gaedeke advised that LARA Communications handles all social media for the Department.

MOTION by Gigliotti, seconded by Vallerand to include a September Pain Awareness Month social media campaign as in 2014

Motion Prevailed

Gaedeke stated that the next meeting date is Friday, November 6, 2015. Committee suggested that meetings be held in the spring and fall.

OLD BUSINESS

Controlled Substance Abuse Committee

Reporters: Steven Roskos, M.D., Timothy Grunwald., Daniel Berland, M.D., Claire Saadeh, Pharm.d, BCOP

The committee found that the board discusses more about opioid abuse and not enough about other issues regarding pain management.

Saadeh felt that there needs to be more communication between committees.

Roskos stated that more regulation will not help individuals who need pain management.

Gaedeke suggested that maybe the ACPSM can add someone from the Prescription Drug Task Force to the agenda.

Lewandowski mentioned a need for more communication between boards such as the Board of Medicine. She believes that under-treatment for pain management should be considered the same offense as overtreatment for pain management.

Jerome mentioned that a list should be created and be provided for the prescriber on what to look for when understanding how to support pain management.

NEW BUSINESS

Subcommittee Appointments

Department staff will send an email to committee members to gather interest and appointment of subcommittee members.

Roskos requested that members get a copy of the statute and history of the ACPSM. Staff will provide.

Gigliotti inquired as to who sets up meetings for subcommittees and mentioned that subcommittees would meet with staff to set an agenda for meetings. This will be handled through the Boards and Special Programs section.

Bureau of Professional Licensing Update

Gaedeke discussed the organization of the new Bureau of Professional Licensing and defined each division within the Bureau and that the Boards and Special Programs section of the Legal Affairs division would be responsible for boards and special programs support.

Gaedeke also explained that the Bureau is working with DTMB to help produce useful MAPS reports.

Saadeh voiced concerned with the function and appearance of the website and inquired whether there would be any changes and updates coming in the near future. Gaedeke suggested that committee members submit their website recommendations to her in order to review and implement changes that are allowable to the website. Gigliotti reported that she has emails regarding recommended changes to the website and would put together those recommendations and forward them to Gaedeke.

Berland recommended that the software on the website be upgraded in order to accommodate users with up to date options when looking for information on the MAPS website.

Gaedeke gave an update on the Prescription Drug Task Force. She was able to attend one meeting and a demo of the MAPS program was given. The task force was able to observe many delays in the system and was advised that the system needs to be improved for easier flow of information. She has spoken with managers of the Kentucky KASPER system, which uses a third party vendor, and is not on real time. This system does not hold back submissions with errors. Ohio also uses a third party vendor, while Oklahoma has a system that includes real time and is a success. The Governor will make a decision on which program to use in the fall.

Lewandowski voiced concern over the heavy law enforcement presence on the task force and would like to see the focus on how to get assistance to those who need it and not just on abuse of medication.

Gigliotti mentioned that the task force did have a public hearing and healthcare providers are advocating to not over regulate. She indicated that the State of Pain Report prepared by the ACPSM was referenced in the Governor's State of the State address.

Saadeh questioned whether there were any pain physicians on the task force.

Gigliotti asked how the ACPSM can have more presence in the task force.

Gaedeke suggested that she would speak to the LARA director, who is also a Prescription Drug Task Force member, about the MAPS program. She also stated that she will forward the ACPSM's recommendations and comments and will ask the director to meet with the ACPSM and be placed on a later agenda.

Gaedeke mentioned that the Prescription Drug Task Force will be meeting around the state and will work with Gigliotti as well as Lewandowski to come up with recommendations from the ACPSM to forward to the Prescription Drug Task Force. It was also mentioned that the Prescription Drug Task Force has a meeting coming up in the Detroit area and Lewandowski stated that she would be attending that meeting.

Lewandowski questioned the charge of the Prescription Drug Task Force. Gaedeke stated that the charge was to offer recommendation on addressing the over prescribing of pain medications. Gigliotti mentioned that the aim seemed to be to reduce opioid abuse. Lewandowski recommended that the ACPSM review the charge of the Prescription Drug Task Force and make recommendations. It was decided that Gigliotti and Lewandowski will review the charge of the task force and bring recommendations to the next meeting.

Purpose of Committee

Pezon reviewed the statute from the Public Health Code, Public Act 368 of 1978, and Elaine Barr, legal analyst for the Bureau, went over the statute that outlines the charge for the ACPSM. Committee members expressed the need for more communication between boards and staff suggested that the committee determine which member to send to board meetings to offer an update.

Travel Reimbursement

Houston noted that if anyone wanted to claim travel reimbursement they should contact her and those who were able to get their ID should follow her to the Hannah Building.

PUBLIC COMMENT

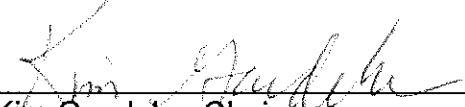

None

ANNOUNCEMENTS

The next regularly scheduled meeting will be held at 9:30 a.m. on November 6, 2015 at the Ottawa Building, 611 West Ottawa Street, Upper Level Conference Center, Conference Room 3, Lansing, Michigan.

ADJOURNMENT

Gaedeke adjourned the meeting at 12:23 p.m.
